**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. This application is in condition for allowance except for the presence of claims 3 and 4 to species non-elected without traverse.

Accordingly, claims 3 and 4 have been cancelled.

***Allowable Subject Matter***

3. Claims 1 and 2 are allowed.
4. The following is an examiner's statement of reasons for allowance:
5. The prior arts of record do not anticipate or render obvious to one skilled in the art a variable optical attenuator comprising a right-handed switchable CLC polarizer and a left-handed switchable CLC polarizer and an electric driver for driving the polarizers wherein the voltages on the two polarizers are continuously changed to electrically adjust the attenuation, including all other recitations.
6. The closest references such as: USPAT 5,686,979 is related to an optical panel capable of switching between reflective and transmissive states wherein reflective polarizers such as microstructured MacNeille polarizers and cholesteric polarizers having a quarter-wave plate attached thereto are used as optical film. Further, USPAT 6,072,549 is related to an electro-optical glazing structure that uses two CLC polarizers and a voltage controller. However, both references alone or in combination with any other prior art references fail to teach or suggest the claimed variable optical attenuator wherein the voltages on the two polarizers are continuously changed to electrically adjust the attenuation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
